

CITY OF AIRWAY HEIGHTS
WASTEWATER FACILITIES PLAN
Final Report
TABLE OF CONTENTS

Title *Page No.*

EXECUTIVE SUMMARY

CHAPTER 1 GENERAL INFORMATION

CHAPTER 1- GENERAL INFORMATION 1-1

A. Project Description..... 1-1

 1. Purpose of Facilities Plan..... 1-1

 2. Background Information/Previous Studies 1-2

 3. Approvals Required 1-3

B. Project Location 1-3

C. Service Area..... 1-4

D. Level of Treatment Required 1-5

CHAPTER 2 – BACKGROUND INFORMATION

CHAPTER 2 - BACKGROUND INFORMATION 2-1

A. Existing Environment 2-2

 1. Surface Water and Groundwater..... 2-2

 2. Atmosphere and Weather..... 2-2

 3. Land 2-7

 4. Sensitive Areas..... 2-7

 5. Endangered Species/Wildlife Habitat 2-10

 6. Public Health..... 2-10

B. Demography and Land Use 2-15

 1. Current Population / Equivalent Population 2-15

 2. Current Land use and Zoning 2-15

C. Current Wastewater System Description And Flows 2-17

 1. Current Wastewater Treatment 2-17

 2. Flow and Loading Data..... 2-17

 3. Sources of Wastewater..... 2-21

 4. Seasonal Loading Variations 2-22

D. Inflow and Infiltration..... 2-23

 1. Sewer Overflows..... 2-26

 2. Combined Sewer Overflows 2-26

 3. Approved CSO Report..... 2-26

E. Unsewered Communities 2-26

 1. Health Emergency..... 2-27

 2. Sanitary Survey Conducted..... 2-27

3. Total On-Site Systems/# of Failures (Commercial/Industrial/Residential)	2-27
4. Health Department Involvement	2-28
5. Failure Modes	2-28

CHAPTER 3 – FUTURE CONDITIONS

CHAPTER 3 – FUTURE CONDITIONS	3-1
A. Demography and Land Use	3-1
1. Population Projections	3-1
B. Wastewater Flow and Load Projections.....	3-11
1. Wastewater Flow and Loading Projections For The City Of Airway Heights	3-11
2. Wastewater Flow and Loading Projections For The City Of Airway Heights And Fairchild Air Force Base.....	3-11
3. Wastewater Flow And Loading Projections For The City of Airway Heights, Fairchild Air Force Base, And The City of Spokane West Plains Sewer Service Area	3-14
C. Future of Existing On-Site Wastewater Systems.....	3-18
D. Future Pretreatment Requirements	3-18
E. Future Collection System.....	3-18
F. Future Flow Reduction Measures	3-19
G. Future Open Space/Recreation Alternatives.....	3-19

CHAPTER 4 – EVALUATION OF ALTERNATIVES

CHAPTER 4 – EVALUATION OF ALTERNATIVES	4-1
A. Description of Discharge Alternatives.....	4-5
1. Discharge to the City of Spokane Riverside Park Water Reclamation Facility	4-5
2. Discharge to the Medical Lake Wastewater Treatment and Reuse Facility	4-7
3. New Wastewater Treatment Facility with Discharge to Deep Creek.....	4-8
4. New Wastewater Treatment Facility with Discharge to Groundwater	4-9
5. New Wastewater Treatment Facility with Discharge to Reclaimed Water System	4-10
B. Evaluation of Site Alternatives for New Treatment Facility	4-17
1. Description of Site Alternatives.....	4-17
2. Comparison of Project Costs for Site Alternatives	4-23
3. Evaluation of Site Alternatives	4-25
C. Effluent Design Criteria for New Treatment Facility	4-40
1. Applicable Regulations and Standards	4-40
a. Secondary Treatment Regulations	4-40
b. Surface Water Regulations and Standards.....	4-40
c. Groundwater Regulations	4-42
d. Reclaimed Water Regulations	4-43
2. Expected Effluent Design Criteria	4-49
D. Reliability Requirements for New Treatment Facility.....	4-52
1. US EPA Reliability Requirements for Wastewater Treatment Plants	4-52
2. Water Reclamation and Reuse Standards Reliability Requirements	4-54
E. Evaluation of Liquid Treatment Processes for New Treatment Facility	4-57
1. Minimum Liquid Treatment Processes for a New Wastewater Treatment Facility	4-57

a. Screening and Grinding	4-57
b. Grit Removal.....	4-58
c. Extended Aeration Activated Sludge Treatment	4-58
d. Secondary Clarification	4-60
e. Disinfection.....	4-60
2. Additional Liquid Treatment Processes for Discharge to Deep Creek.....	4-61
3. Additional Liquid Treatment Processes for Discharge to Groundwater.....	4-63
4. Additional Liquid Treatment Processes for Discharge to Reclaimed Water System	4-63
5. Summary of Liquid Treatment Processes for Discharge Alternatives.....	4-65
6. Comparison of Treatment Costs for Discharge Alternatives.....	4-70
F. Evaluation of Biosolids Management Alternatives for New Treatment Facility	4-75
1. Biosolids Management Criteria	4-75
a. Pathogen Reduction	4-75
b. Vector Attraction Reduction.....	4-79
c. Pollutant Limits.....	4-81
2. Biosolids Production Projections.....	4-82
3. Production of Class A Biosolids with Composting	4-83
4. Production of Class B Biosolids with Agricultural Land Application	4-85
a. Thickening, Storage, and Dewatering Prior to Land Incorporation	4-87
b. Thickening Prior to Land Application via Subsurface Injection	4-87
c. Thickening and Air Drying on Drying Beds Prior to Land Incorporation	4-88
d. Dewatering and Air Drying on Drying Beds Prior to Land Incorporation.....	4-88
5. Off-Site Treatment and Disposal of Biosolids.....	4-89
6. Comparison of Costs for Biosolids Management Alternatives.....	4-90
G. Evaluation of Final Discharge Alternatives	4-93
1. Comparison of Project Costs for Discharge Alternatives	4-93
a. Discharge to the Spokane RPWRF Versus Discharge to New Treatment Facility ...	4-93
b. Discharge to Medical Lake WWTRF Versus Discharge to New Treatment Facility	4-99
2. Scoring of Final Discharge Alternatives.....	4-103
3. Recommended Discharge Alternative	4-105

CHAPTER 5 - DESCRIPTION OF SELECTED ALTERNATIVE

CHAPTER 5 - DESCRIPTION OF SELECTED ALTERNATIVE	5-1
A. Site Layout and Future Expansion.....	5-2
B. Process Schematic and Hydraulic Profile	5-5
C. Solids Mass Balance and Sludge Disposal Plan	5-9
D. Design Criteria for Project Phasing	5-11
E. Design Criteria for Unit Processes.....	5-12
F. Background Ground Water Quality	5-16
G. Existing and Future Required Hydrogeologic Information	5-18
H. Water Rights Impairment Analysis.....	5-19
I. Staffing Requirements	5-20
J. Estimated Laboratory Tests Required for Permit Compliance.....	5-21
K. Influent Priority Pollutant Data and Expected Removal.....	5-24

CHAPTER 6 – PROJECT FINANCING

CHAPTER 6 – PROJECT FINANCING	6-1
A. Project Costs for Wastewater Treatment and Collection System	6-3
B. Existing and Projected Wastewater Treatment and Collection System Expenditures.....	6-7
C. Potential Project Funding Sources and Application Schedule.....	6-10
D. Project Funding Scenarios and Estimated User Fees Without Construction Phasing	6-13
E. Project Capital Costs With Construction Phasing	6-16
F. Project Funding Scenarios and Estimated User Fees With Construction Phasing	6-18
G. Project Costs for Reclaimed Water Distribution System.....	6-22
H. Projected Wastewater Treatment, Collection, and Reclamation System Expenditures.....	6-24
I. Project Funding Scenarios and Estimated User Fees Including Reclaimed Water Distribution System.....	6-26
J. Recommended Funding Approach	6-29

CHAPTER 7 – OTHER REQUIREMENTS

CHAPTER 7 - OTHER REQUIREMENTS.....	7-1
A. Compliance with State Environmental Policy Act	7-1
1. SEPA and SERP Compliance	7-1
B. Project Identified in Previous Plan	7-1
C. Public Participation.....	7-1
D. Approvals and Permits.....	7-2
E. Implementation Schedule.....	7-7

APPENDICES

Appendix A.	Interlocal Agreement with City of Spokane
Appendix B.	Regulations and Standards
Appendix C.	Sensitive Areas
Appendix D.	Extract from “Preliminary Design brief for the South Side Sewer Collection System” (1995, Wyatt Engineering, Inc.)
Appendix E.	Water & Sewer Use by Class (July & Aug 2004)
Appendix F.	Environmental Review Documents
Appendix G.	Public Participation
Appendix H.	DOC – City of Airway Heights Capacity Transfer Agreement
Appendix I.	Agency Comments and Approvals

LIST OF TABLES

Title *Page No.*

CHAPTER 1

Table 1-1. Abbreviations 1-6

CHAPTER 2

Table 2-1. Normal Atmospheric / Weather Conditions 2-5
Table 2-2. Precipitation Averages..... 2-5
Table 2-3. Atmospheric Averages Normal Temperature..... 2-6
Table 2-4. Well information in The Vicinity Of The Preferred Site 2-14
Table 2-5. Ultimate Density By Drainage Basin 2-16
Table 2-6. Airway Heights Data Summary, Wastewater Flow and Load, 1999-2003 2-20
Table 2-7. Fairchild AFB Data Summary, Wastewater Flow and Load, 1999-2003 2-21
Table 2-8. Precipitation vs. Sewer Production..... 2-24

CHAPTER 3

Table 3-1. ERU Growth Projections..... 3-4
Table 3-2. Wastewater Flow Projections 3-6
Table 3-3. Ultimate Density By Drainage Basin 3-9
Table 3-4. Wastewater Flow and Loading Projections For The City of Airway Heights 3-12
Table 3-5. Wastewater Flow and Loading Projections For City of Airway Heights & FAFB.. 3-13
Table 3-6. Wastewater Flow and Loading Projections For The City of Airway Heights, FAFB,
and City of Spokane West Plains Sewer Service Area 3-16

CHAPTER 4

Table 4-1. Potential Reclaimed Water Customers..... 4-12
Table 4-2. Additional Potential Reclaimed Water Customers..... 4-16
Table 4-3. Comparison of Project Costs for Site Alternatives..... 4-24
Table 4-4. Evaluation of City of Airway Heights WTRRF Site Alternative No. 1 4-26
Table 4-5. Evaluation of City of Airway Heights WTRRF Site Alternative No. 2..... 4-29
Table 4-6. Evaluation of City of Airway Heights WTRRF Site Alternative No. 3..... 4-32
Table 4-7. Evaluation of City of Airway Heights WTRRF Site Alternative No. 4..... 4-35
Table 4-8. Scoring of City of Airway Heights WTRRF Site Alternatives 4-39
Table 4-9. Applicable Regulatory Criteria for Various Discharge and Reuse Alternatives..... 4-46
Table 4-10. Expected Effluent Design Criteria for Discharge and Reuse Alternatives..... 4-50
Table 4-11. Wastewater Treatment System Reliability Requirements..... 4-53
Table 4-12. Summary of Liquid Treatment Processes for Discharge and Reuse Alternatives.. 4-66
Table 4-12A. Summary of Biological Treatment Processes and Reasons for Elimination from or
Selection for Further Consideration..... 4-67

Table 4-13. Treatment Equipment Used in Cost Estimates for Discharge Alternatives	4-71
Table 4-14. Estimated Treatment Facility Capital Cost for Discharge Alternatives	4-72
Table 4-15. Estimated Total Costs for Discharge Alternatives from New Treatment Facility .	4-74
Table 4-16. Summary of Class A Pathogen Reduction Requirements	4-77
Table 4-17. Summary of Class B Pathogen Reduction Requirements	4-78
Table 4-18. Vector Attraction Reduction Requirements	4-80
Table 4-19. Pollutant Limits for Land Application of Biosolids	4-81
Table 4-20. Monitoring Requirements for Land Application of Biosolids	4-82
Table 4-21. Sludge Production Projections for the City of Airway Heights	4-83
Table 4-22. Summary of Land Application Restrictions for Class B Biosolids.....	4-86
Table 4-23. Comparison of Costs for Biosolids Management Alternatives	4-91
Table 4-24. Present Worth of Projected Costs for City of Spokane Sewer Contract and New City of Airway Heights Treatment Facility	4-98
Table 4-25. Comparison of Capital Costs for New Airway Heights Treatment Facility Versus Discharge to the Medical Lake WWT&RF	4-101
Table 4-26. Comparison of Total Costs for New Airway Heights Treatment Facility Versus Discharge to the Medical Lake WWT&RF	4-102
Table 4-27. Scoring of Final Discharge Alternatives	4-104

CHAPTER 5

Table 5-1. Design Flow and Loading for Project Phases.....	5-11
Table 5-2. Preliminary Design Criteria for Unit Processes	5-12
Table 5-3. Monitoring Data From City of Airway Heights Groundwater Supply Wells	5-17
Table 5-4. Estimated Permit Required Tests and Schedule.....	5-22
Table 5-5. Influent Priority Pollutant Sampling Data for the City of Airway Heights Influent Wastewater (2002-2003).....	5-27
Table 5-6. Summary of Influent Priority Pollutant Sampling Data, Effluent Regulatory Criteria, and Expected Removal Mechanisms	5-30
Table 5-7. Analytical Methods Currently Approved for Analysis of Arsenic in Drinking Water	5-32

CHAPTER 6

Table 6-1. Estimated City of Airway Heights Treatment System Capital Cost - 1.54 MGD Capacity	6-4
Table 6-2. Estimated City of Airway Heights Collection System Capital Cost	6-5
Table 6-3. Estimated First-Year City of Airway Heights Treatment System Operation and Maintenance Costs	6-6
Table 6-4. Estimated First-Year Additional City of Airway Heights Collection System Operation and Maintenance Costs	6-6
Table 6-5. Estimated City of Airway Heights Sewer Treatment and Collection System Operating Expenditures (2005 – 2015).....	6-8
Table 6-6. Potential Financing Scenarios for City of Airway Heights Treatment and Collection System Capital Improvement Program.....	6-14

Table 6-7. Estimated Project Capital Costs with Construction Phasing of City of Airway Heights Treatment System	6-17
Table 6-8. Potential Financing Scenarios for City of Airway Heights Treatment and Collection System Capital Improvement Program - Phase I.....	6-19
Table 6-9. Potential Financing Scenarios for City of Airway Heights Treatment and Collection System Capital Improvement Program - Phase II.....	6-20
Table 6-10. Estimated City of Airway Heights Reclaimed Water Distribution System Capital Costs.....	6-23
Table 6-11. Estimated City of Airway Heights Reclaimed Water Distribution System Operation and Maintenance Costs	6-23
Table 6-12. Estimated City of Airway Heights Wastewater Treatment, Collection, and Reclamation System Operating Budget (2005 – 2015)	6-25
Table 6-13. Potential Financing Scenarios for City of Airway Heights Wastewater Treatment, Collection, and Reclaimed Water System Capital Improvement Program - Phase I.....	6-27
Table 6-14. Estimated City of Airway Heights New Wastewater Treatment, Collection, and Reclamation System CIP Funding Schedule (2005 – 2012).....	6-31

CHAPTER 7

Table 7-1. Project Approvals & Permits Required	7-3
Table 7-2. Allocation of Flows To City Of Spokane Treatment Facility	7-7
Table 7-3. Proportion Of Allocated Flows Generated.....	7-7
Table 7-4. Projection Of Additional Interim Capacity Needs	7-8

LIST OF FIGURES

Title *Page No.*

CHAPTER 1

1-1. Vicinity Map City of Airway Heights, City of Spokane	1-8
1-2. City Map Showing Project Location (Preferred Site), City Hall, Public Works.....	1-9
1-3. Map Showing CAH Existing Service Area	1-10
1-4. Map Showing CAH Unsewered Areas	1-11
1-5. Map Showing ERU Sub Areas	1-12
1-6. CAH Zoning Map.....	1-13

CHAPTER 2

Figure 2-1. WRIA 54 Map.....	2-3
Figure 2-2. WRIA 34 Map.....	2-4
Figure 2-3. Deobald Paleochannel Map.....	2-8
Figure 2-4. Priority Habitat & Species Map	2-9
Figure 2-5. Wetlands Map	2-11
Figure 2-6. NHWI Map.....	2-12
Figure 2-7. Wells in Vicinity of Preferred Site.....	2-13
